EXPERIENCE

AI Engineer Intern (On-site) · Teradata

2026

- Built a LangGraph meta-tooling agent that auto-generates the tools and skills the product's homepage chatbot needs, triggered directly from CI/CD when a new feature ships.
- Designed a self-critique loop and validation gate so generated tools are checked against the source spec before they reach the live chatbot runtime. The chatbot never calls a tool the LLM hallucinated.
- Integrated with internal CI/CD through a FastAPI service. Shipped as a Docker service inside Teradata's environment.

Full-Stack Intern · Noted

Feb 2025 to Present

- Owned a large slice of a multi-tenant SaaS control panel. Around 10k lines across backend and frontend, 13 MongoDB models, 20+ API endpoints.
- Built a domain-hierarchical policy engine (tenant, domain, sub-domain) with automatic threshold enforcement and full audit trails.
- Frontend on React 18 + TypeScript + Vite with TanStack Router and Query and Zustand. Backend on Node.js + Express 5 + MongoDB with JWT, TOTP (Speakeasy), and Google OAuth.

Web Dev Head · Diesta, IIT Hyderabad

Sep 2024 to Feb 2025

- Led a team of six to build the official interdepartmental fest portal with live event tracking and result management.
- Used Next.js with Excel sheets as the data source so non-tech organisers could edit content without me in the loop. Handled domain setup and SEO.

Core Developer · Lambda Web Dev Club, IIT Hyderabad

Aug 2024 to Apr 2025

- Built a static site for Cepheid (Astronomy Club) using Hugo and Go, so non-devs on the club team could update content with plain Markdown.
- Shipped a full-stack MERN cricket tournament manager and automated club emails with Google Apps Script.

SELECTED PROJECTS

PEAD-X: Quantitative Trading Bot

A production bot that trades Post-Earnings Announcement Drift on Indian equities. Local AI extraction pipeline (Ollama + Qwen 2.5) orchestrated with LangGraph, real-time Fyers WebSocket microstructure monitor, fractional-risk position sizing, and a multi-tier exit strategy. Runs entirely on local hardware.

Node.js · Express · MongoDB · LangGraph · Ollama · Fyers V3 · React · Vite

Teradata Meta-Tooling Agent

A LangGraph agent that generates chatbot tools on every CI/CD rollout, with a self-critique gate that rejects anything not backed by the source spec. Built during my on-site internship at Teradata.

Python · LangGraph · LangChain · FastAPI · Docker

Tenant Configuration Control Panel

A multi-tenant SaaS for auth, event-based attendance, and academic-policy enforcement. Domain-hierarchical policy resolution, lazy user linking, time-window validation, and around 10k lines of code.

React 18 · TypeScript · TanStack Query · Zustand · Node.js · Express 5 · MongoDB · JWT · Speakeasy

Real-Time Video Upscaling & Frame Generation

A research project on live video super-resolution and frame interpolation. Benchmarked PSNR and SSIM against end-to-end frame latency across model variants under strict real-time budgets.

Python · PyTorch · CUDA · OpenCV

Cricket Tournament Management App

A full-stack tournament manager with live scoring, role-based access (admin, scorer, viewer), and an admin portal. Started life as a DBMS course project at IIT Hyderabad.

React · FastAPI · MySQL · Nginx

Cepheid IITH: Astronomy Club Website

A static site built with Hugo and Go so non-devs on the club team can keep it updated with plain Markdown. Deployed on Netlify.

Hugo · Go · Markdown · Netlify

SKILLS

AI & Agents	LangGraph, LangChain, Ollama, LLM Tooling, RAG, Agent Orchestration, Prompt Design
Languages	Python, TypeScript, JavaScript, Go, C/C++, Java, SQL
Backend	FastAPI, Node.js, Express, MongoDB, PostgreSQL, MySQL, REST APIs, WebSockets
Frontend	Next.js, React, Tailwind CSS, TanStack Query, Zustand, Framer Motion, Vite
Tooling	Docker, Nginx, CI/CD, Git, PM2, Vercel, Netlify

EDUCATION

Indian Institute of Technology Hyderabad	2023 to 2027
B.Tech in Computer Science & Engineering	
Sri Chaitanya Junior College, Hyderabad	2021 to 2023
MPC	

EXTRACURRICULARS

- Annual Fest Coordinator, IIT Hyderabad · Aug 2024 to Mar 2025
- Core Member, Glitch Club (Gaming), IIT Hyderabad · Aug 2024 to Mar 2025
